Imran Sayyed

SENIOR SOFTWARE ENGINEER

Profile

Persistent professional equipped with 5+ years of comprehensive experience in IT industry. Provides strong technical direction across multiple projects. Responsible and articulate individual with strengths in solutions optimization, mobile and cloud solutions and global project management.

Employment History

Senior Software Engineer, Trafilea Tech E-Commerce Group, Buenos Aires

11/2022 - Present

- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.
- Maintained existing software systems by identifying and correcting software defects.
- Developed scalable and maintainable code, ensuring long-term stability of the software.
- Enhanced user experience with intuitive interface design and responsive web applications.
- Provided guidance and mentored less-experienced staff members.

Associate Software Engineer, Bed Bath & Beyond (Logixal Solutions), Mumbai

04/2021 - 11/2022

- Developed unit tests for critical components, leading to reduced risk of defects in production code.
- Optimized test cases to maximize the success of manual software testing.
- Contributed to the design and implementation of a RESTful API, leading to easier integration with other systems.
- Collaborated with cross-functional teams to develop, test, and deploy high-quality software solutions for clients.
- Enhanced application performance through optimization of algorithms and data structures.

UI Developer, EvolutionCo, Mumbai

03/2019 - 04/2021

- Collaborated with teammates to deliver valuable features meeting business and customer needs.
- Developed custom UI components to address unique business requirements and improve overall functionality.
- Used wireframes, mock-ups, and prototypes to establish user interface design and architecture.
- Worked with design teams, project managers, and business analysts to create intuitive and easy-to-use software.
- Developed application UI via emerging front-end technologies.
